Massage & Treatments

Spa Nuxe Domaine de Marlioz

Relax in the heart of Savoie, between lake and mountains at the SPA Nuxe Domaine de Marlioz.

Boasting five treatment cabins including a duo, a swimming pool, a hammam, a hot tub and an outdoor pool, this wellness cocoon surrounded by a 10-hectare park is the ideal place to enjoy a moment of absolute serenity in the middle of nature.

IN THE HEART OF THE ELEMENTS (only in season)

This treatment, offered in the heart of our 10-hectare park, combines muscular relaxation through our signature massage inspired by the four elements and a unique immersive 360° soundtrack that promotes full body and mind relaxation. The immersive soundtrack, with its depth and spatialization, transports you to the middle of a park, inviting you on a journey of inner exploration.

All your senses are awakened... The breeze gently caresses your skin, the sound of birds and a waterfall in your headphones transports you far away during your exploration, while the practitioner helps your muscles unwind. The sounds, in harmony with the massage, will amplify the sensations.
